AI & Data Science undergraduate with hands-on experience building and deploying full-stack Django applications, including an LLM-powered hiring platform. Strong foundation in Python, SQL, and backend architecture, paired with trained soft skills in communication, presentation, and professional workplace etiquette.

EDUCATION

Bachelor of Technology — Artificial Intelligence & Data Science

2023 - 2027

World College of Technology & Management (WCTM), Gurugram | Aggregate: 68.84%

PROJECTS

Resume2Job AI — AI Hiring & Job Matching Platform

Python, Django, Google Gemini API, SQL, spaCy, PyMuPDF, Gunicorn, Git

- Architected a dual-user (candidate & recruiter) hiring platform with role-based dashboards for job posting, applicant tracking, and workflow management.
- Integrated Google Gemini API for LLM-based semantic match scoring between parsed resumes (PyMuPDF) and job descriptions, automating talent screening.
- Built ATS diagnostics to surface skill gaps, formatting issues, and keyword density; deployed on Render using Gunicorn WSGI with WhiteNoise for static assets.

Personal Developer Portfolio

Python, Django, Tailwind CSS, Gunicorn, Git

- Designed a production-ready, minimalist portfolio on Django's MVC architecture to showcase engineering work.
- Configured WhiteNoise and Gunicorn for optimized static asset delivery and automated continuous deployment on Render.

EXPERIENCE & HACKATHONS

National Level Hackathon — WCTM

October 2024

- Architected a Smart Education prototype delivering personalized learning tracks and adaptive problem-solving modules.
- Integrated a Django backend with optimized SQL relational models; improved processing latency by 15% under competition constraints.

Techfest 2025 — WCTM

January 2025

- Served as Database Manager in a 4-member team building an Intelligent Quiz Maker with dynamic, adaptive questions.
- Designed optimized SQL schemas for user profiles, question banks, and real-time score tracking.

SKILLS

Languages & Web: Python, JavaScript, HTML, CSS, Tailwind CSS

Frameworks & Databases: Django, React.js, SQL, MySQL

Tools: Git, GitHub, Gunicorn

Soft Skills: Communication, Presentation & Business Etiquette, Group Discussion & Interview Skills, Problem-Solving Mindset, Effective Email Writing, Teamwork

CERTIFICATIONS & TRAINING

- TCS iON Career Edge — Young Professional — Tata Consultancy Services
- 40-Hour Django Backend Development — Appwars Technologies Pvt. Ltd.
- Domestic Data Entry Operator — Ministry of Skill Development & Entrepreneurship, Government of India
- AI/ML Workshop on ABB Arm Robot — WCTM | AI & Metaverse Training (1 Week) — WCTM
