EDUCATION

B.Tech - AI & Data Science

World College of Technology & Management, Gurugram

2023 - 2027 | Aggregate: 68.84%

SKILLS

Languages
Python, JavaScript

Web
HTML, CSS, Tailwind CSS

Frameworks
Django, React.js

Databases
SQL, MySQL

Tools
Git, GitHub, Unicorn

SOFT SKILLS

Communication & Presentation,
Business Etiquette, Group Discussion & Interview Skills, Problem-Solving Mindset, Effective Email Writing, Teamwork

CERTIFICATIONS

TCS iON Career Edge - Young Professional, Tata Consultancy Services
40-Hour Django Backend Development, Appwars Technologies Pvt. Ltd.
Domestic Data Entry Operator, Ministry of Skill Development & Entrepreneurship, Govt. of India
AI/ML Workshop on ABB Arm Robot - WCTM
AI & Metaverse Training (1 Week) - WCTM

PROFILE

AI & Data Science undergraduate with hands-on experience building and deploying full-stack Django applications, including an LLM-powered hiring platform using the Google Gemini API. Strong foundation in Python, SQL, and backend architecture, paired with trained soft skills in communication, presentation, and professional workplace etiquette.

PROJECTS

Resume2Job AI - AI Hiring & Job Matching Platform

Python, Django, Google Gemini API, SQL, spaCy, PyMuPDF, Unicorn, Git

- Architected a dual-user (candidate & recruiter) hiring platform with role-based dashboards for job posting, applicant tracking, and workflow management.
- Integrated Google Gemini API for LLM-based semantic match scoring between parsed resumes (PyMuPDF) and job descriptions, automating talent screening.
- Built ATS diagnostics to surface skill gaps, formatting issues, and keyword density; deployed on Render using Unicorn WSGI with WhiteNoise for static assets.

Personal Developer Portfolio

Python, Django, Tailwind CSS, Unicorn, Git

- Designed a production-ready, minimalist portfolio on Django's MVC architecture to showcase engineering work.
- Configured WhiteNoise and Unicorn for optimized static asset delivery and automated continuous deployment on Render.

EXPERIENCE

National Level Hackathon - WCTM

October 2024

- Architected a Smart Education prototype delivering personalized learning tracks and adaptive problem-solving modules.
- Integrated a Django backend with optimized SQL relational models; improved processing latency by 15% under competition constraints.

Techfest 2025 - WCTM

January 2025

- Served as Database Manager in a 4-member team building an Intelligent Quiz Maker with dynamic, adaptive questions.
- Designed optimized SQL schemas for user profiles, question banks, and real-time score tracking.
